INTRODUCTION

This guide has been corrected with information and data received from its many sources. All Libraries, Record Offices, and other sources have again been contacted and the Society is appreciative of the revisions, corrections, and comments received.

Again it would be greatly appreciated if any errors, omissions or inconsistencies, having been discovered, were forwarded to the Society. All suggestions and improvements for incorporation in any future revisions will be welcome.

It is hoped that this guide will continue to fulfil its purpose by providing members of the Society, and others, having genealogical and historic interests in Hampshire, with a guide to help their research.

GENERAL

At Hampshire Record Office we welcome personal visitors to the search room and strongly advise booking a microform machine in advance if you are likely to be using material such as parish registers, wills, censuses and the General Register Office indexes of births, marriages and deaths. For those unable to visit, all enquiries about holdings which can be answered using catalogues and indexes are answered free of charge, as are most short, specific requests which may require consultation of a document. A paid research service is available for more detailed requests and costs £15 per hour (2000 charge). A list of independent record searchers is also available.

Book Collection:-

The books in the Genealogical Collection are a mixture of old and new publications. The older books tend to be particularly concerned with the peerage, baronetage, landed gentry, etc., although there are also series of registers, for example, indexes to wills and transcripts of parish registers. More recent books are aimed at all those interested in tracing their families through the great numbers of records increasingly available in libraries and record offices. Thus there are numerous guides to using records and constructing a family tree. A summary of the main sections of the Genealogical Collection books is given below:

301/312	Books about the census
330s	Domesday Book and register of owners of land

In addition, the books from the library of the Hampshire Genealogical Society have been deposited in both the Genealogical Collection and the Local Collection. On the spine they have subject numbers only. Other books have subject numbers and yellow tape marked with the letters GC. All these are for reference use only. There is also a small number of books for loan. These are shelved at the end of the reference books and have red dots on the spine.

HARTLEY LIBRARY

University of Southampton, Highfield, Southampton. SO9 5NF

Telephone: 023-8059-2180

Opening Hours: Monday - Thursday: 9.00am to 10.00pm

Friday 9.00am to 6.00pm

Saturday 9.00am to 5.00pm

Sunday 12 noon to 9.00pm

The Hartley Library holds a considerable amount of material essential to the study of local history. Although the Cope Collection on Hampshire and the Isle of Wight is a well known source for local studies, within the general stock of the Library there are many other sources of information on Hampshire and on other areas of the country

The original Cope Collection was bequeathed by Sir William Cope in 1892 to the Hartley Institution, thence passing to the University, and since added to, is of immense value to those researching any aspect of Hampshire and the Isle of Wight.

Everything which could be found in print about this county is included. The Collection now consists of over 10,000 books, including many rare books, and pamphlets. 7 large albums of engravings containing many scarce examples, more than 4000 illustrations, including postcards, photographs and engravings, about 2000 maps, prints and posters, and various manuscripts and papers. All Cope books, pamphlets and periodicals are listed in the University of Southampton online catalogue available at <http://www-lib.ac.uk>

The Cope Collection is part of the Special Collections Divisions on level 4 of the Hartley Library. It is normally open at the following times; Monday, Tuesday, Thursday and Friday 9.00am to 5.00pm; Wednesday 10.00am to 5.00pm. The collection is available for use by members of the University and to members of the public.

There is a Catalogue of the Bound Volumes in the Cope Collection in the Portsmouth City Records Office.

The Ford Collection of Parliamentary Papers can often provide quite detailed information on aspects of local life in which central government took an interest, such as education, poor relief, public health, etc. Professor and Mrs. P. Ford developed this fine collection and used it to produce their series of guides to parliamentary papers. The collection includes a set of Sessional Papers from 1801 and a facsimile reprint of those for 1715-1760. There are also sets of Cobbett's *Parliamentary History of England 1066-1803* and the later volumes of *Hansard*. The Journals of both Houses are held, the Lords Journal from 1509 and the Commons Journal from 1547. There are a number of guides and indexes to Parliamentary Papers.

The Library also contains a section on History Sources and holds:

Published Texts and Calendars of documents in the PRO as listed in British National Archives, Sectional List 24.

Reports and Calendars of the Historical Manuscripts Commission, 1911-1957

Publications of the Camden Society, Harleian Society, British Record Society and the Navy Records Society

The Library has a number of national periodicals which are also sources of local information:

MONUMENTAL INSCRIPTIONS

Since its inception, the Hampshire Genealogical Society has been recording the monumental inscriptions in the county's churches and burial grounds. These have all now been completed. Work is now in hand to record the municipal and parish cemeteries. Some of the larger municipal cemeteries have been completed and substantial progress has been made on many others by the efforts of small number of willing volunteers. The Society holds nothing for the Isle of Wight.

Where recording has been completed, indexed transcripts have been deposited in the Society's Manuscript Library, at Twyford, with the Society of Genealogists, with the appropriate Incumbent and the Hampshire Record Office. Written requests for information as to burial grounds completed should be addressed to A.C. Colpus, 5a Westfield Oaks, Westfield Avenue, Hayling Island, Hants. PO11 9AQ. Questions on monumental inscriptions themselves should be addressed to Dennis Pearce, "Wayside", Roman Road, Twyford, Winchester, Hants. SO21 1QW

The monuments both inside and outside Portsmouth Cathedral were recorded by A. I. Everitt in 1891 and are in his notebook in Portsmouth City Records Office. This is the only known record of the external monuments, which have since been removed.

The Hampshire Genealogical Society is at present producing the monumental inscriptions in microfiche format. The following is a list of those already completed:
